The project represents a unique construction office tower will rise to a height of about 40 floors subsidiaries - 1,600 square meters over two floors of commercial and 4 - basement floors. Each floor will be allocated 22 underground parking spaces and storage space. The project is anticipated for occupancy in about four - years from the date of exercise option.

Facilities The BBC is my business and trade to include at the end of the rapid development 600 thousand square meters of offices and will become one of the centers of employment and trade stand in the Dan region. Even today, three years after the official announcement of the construction work area six office towers, serve as an alternative for professionals Professionals and large companies from the Central zone. about 3 additional towers are under construction and 3 - are grown in advanced planning stages. The complex near Ramat Gan and in the business district of downtown Tel Aviv and Ramat soldier, Yarkon Park and the Ayalon Mall, a fact which makes it a magnet for many business owners. BBC is established between the area's major traffic arteries - the axis of Jabotinsky way if colonies, through the Sinai Campaign and Ben Gurion Street, which separates the Ramat Gan and Bnei Brak. The tower in the project, the facade appeal to the axis of Jabotinsky, near the train station of Bnei Brak. Light rail route, the axis of Jabotinsky is one of its pillars, pass 80 meters from the entrance to the tower. With Jabotinsky's essay axis linking Tel Aviv, Ramat Gan and Petah Tikva interchange if the colonies improved access to vehicle arrival.
